

PACK TRUE-TO-NAME NURSERY
McMINNVILLE, TENNESSEE
COMMERCIAL PRICE LIST TO FRUIT GROWERS
FALL - SPRING
1957 - 1958
To Our Friends

O. D. PACK, Manager

A new 24 page FULL COLOR catalog is being processed and will be ready for mailing this Fall and Winter. Please bear with us and use this inexpensive price list until our new catalog is available.

We are glad to announce that our Peach and Apple trees are being grown on virgin soil using fertilizers with chemicals added, this will assure you of better trees free from root knot, nematode, crown gall and other diseases.

Yours very truly,
O. D. Pack

COMMERCIAL

Price List
TO FRUIT GROWERS
Fall - Spring
1957 - 1958

Please Read Carefully Before Ordering

Our ultimate goal is to offer you the very best, both in price and in quality trees and berry plants. That deserves your consideration. Having years of experience, together with mass production makes it possible to offer you quality stock at these new low prices.

Twenty percent of the total amount of your order is requested at the time you send us the order. Use our regular order blank if available; if not use plain paper.

Prices quoted F.O.B. McMinnville.

We are prepared to mail you an acknowledgment the same day your order is received. Prices in this catalogue may be changed without notice.

TERMS

Remit by money order or check; unregistered currency is sent at your risk.

Send remittance for full amount of order. It saves us a great deal of office labor and saves you collection fees on balances sent C.O.D.

A deposit of 20% is required with all C.O.D. orders.

SALES TAX

TENNESSEE customers please add **3%** to your order to cover the state Sales Tax.

TRANSPORTATION

All orders will be shipped by Express or Parcel Post. Freight is not generally recommended.

Large orders will be sent by express collect. Small packages by Parcel Post.

We have some stock not quoted in this price list. Please advise us of your requirements if you do not find some listed.

Bear this in mind when purchasing nursery stock from us, that better stock cannot be had at any price, and remember, too, that we propagate only from tested orchards, and do guarantee that every tree or plant is true to its label and to be of the best full fruiting strain.

SPECIAL 5% DISCOUNT

**ON ALL ORDERS RECEIVED ON
OR BEFORE JUNE 10TH. THIS
WILL HELP US TO WORK OUR
SCHEDULE OF VARIETIES.**

PEACHES

AS ONE OF AMERICA'S LEADING FRUITS, PEACHES CONTINUE TO BE A GREAT PROFIT-MAKER AND GENERAL FAVORITE OF GROWERS IN COMMERCIAL AND HOME PLANTINGS.

*PROPER VARIETY AND TREE SELECTION WILL LEAD TO
QUICKER RESULTS AND GREATER PROFITS AND
SATISFACTION—LET US HELP YOU WITH YOUR
PLANTING NEEDS THIS YEAR.*

Come in or write and take advantage of this direct to the planter service.

MAYFLOWER—Earliest. White flesh, clingstone. Bright red color.

HILAND—Ripens a day earlier than Cardinal or 5 days earlier than Dixired. Clingstone, medium size.

MAYGOLD—Ripens about 3 days earlier than Dixired. Clingstone, medium size, yellow flesh.

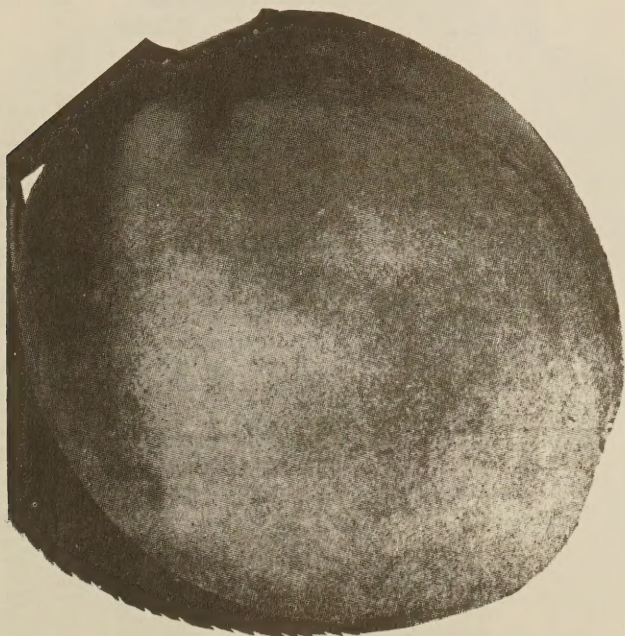

RED CAP—Ripens a few days earlier than Dixired. Clingstone, medium size, yellow flesh.

CARDINAL—Yellow flesh clingstone, medium size, resembles Dixired. Ripens 5 days earlier than Dixired.

EARLY BIRD—Atractive bright red. White flesh clingstone.

DIXIRED—Medium size, yellow flesh clingstone. Firm, good flavor, red blush covering three-fourths of surface.

JERSEYLAND—Yellow flesh freestone. Medium to large size. Excellent for clay soil.

SUN HAVEN PEACH

SUNHAVEN—Result of cross made in South Haven, Michigan by Stanley Johnston in 1944. Matures ten days earlier than Red Haven. Fruit is large in size, nearly round and uniform in shape. Flesh clear yellow, partial cling until fully ripe.

RED HAVEN—Good size, red color. Yellow flesh freestone. Favorite commercial variety.

CORONET—Medium sized, flesh yellow, firm, but melting smooth textured and of good mild flavor, slightly earlier ripening than Dixigem.

DIXIGEM—Yellow flesh freestone. Red blush on yellow background, medium size, fine texture, excellent flavor, good shipper.

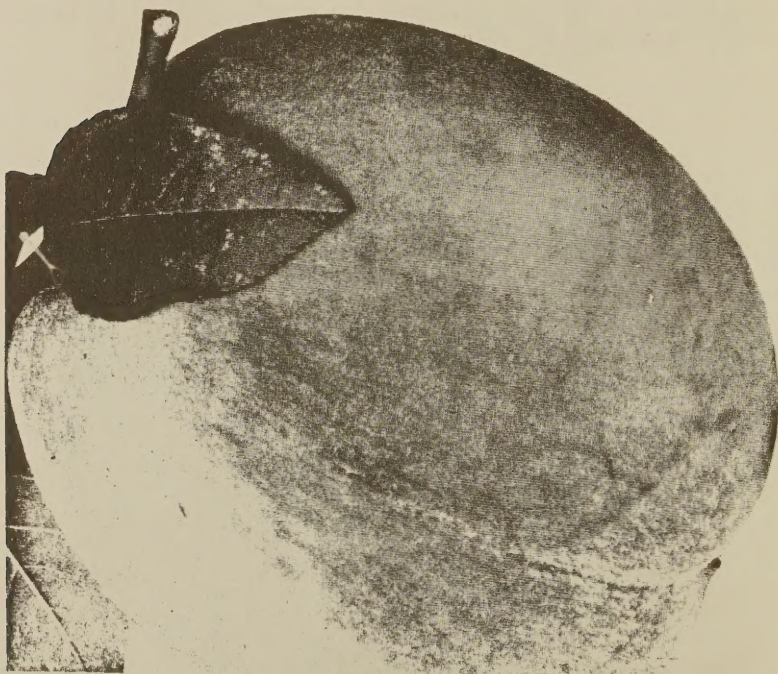

RANGER—Yellow, freestone, medium to large size, ripens with or just after Golden Jubilee. Suitable for freezing or canning.

KEYSTONE—Yellow flesh, firm, smooth texture, good flavor. Ripens a week earlier than Southland.

TRIOGEM—Large, golden, yellow flesh, freestone. One-half to three-fourths surface bright red.

SUNHIGH—Large, yellow flesh, freestone. Lemon skin blushed bright red.

SOUTHLAND—Large, yellow flesh, freestone. Firm, three-fourths surface bright red.

RICH HAVEN PEACH

BURNETTE ELBERTA—Earliest and reddest Elberta known, freestone.

RICH HAVEN—Originated at South Haven, Michigan Experiment Station. Fruits large, uniform in size and shape. Color bright red blush with stripes of red and gold laid over a bright golden ground color. Ripens with Hale Haven or 14 days before Elberta.

HALE HAVEN—Good size and color, yellow flesh freestone. Favorite commercial variety.

LORING—Resembles Golden Jubilee in color and shape. Large firm yellow fleshed freestone.

GOLDEN EAST—Large yellow flesh, freestone. Firm, highly colored.

BLAKE ELBERTA—Ripening with Sullivan Early Elberta, much more redness.

SULLIVAN'S EARLY ELBERTA—Best early Elberta. Freestone.

BELLE OF GEORGIA—White flesh freestone.

REGULAR ELBERTA—Yellow flesh freestone. Old favorite.

J. H. HALE—Large yellow flesh, freestone. Firm. Favorite commercial variety.

SHIPPER'S LATE RED—Large, round, yellow flesh, freestone. Attractive red coloring.

AFTERGLOW—Yellow flesh freestone, well colored, firm large.

RIO-OSO-GEM—A Hale type late peach following Elberta 7 to 10 days. Fruit large with brilliant red color.
